To whom it may concern,

I am writing to provide my recommendation for ROCS Africa, predicated upon their exceptional service in the revamp of the refrigeration systems at North Beach Spar. Their contributions have been pivotal to our operational efficiency, yielding cost savings.

I was super impressed with the knowledge and quality of workmanships shown by the staff. The project was well thought out and well executed in the installation. When a problem a raised, plan was put into place and no expense spared. To the planning of the plant room to the labelling of each fridge, to the cleaning of the fridges, to the handover. Super impressive.

I extend my sincere appreciation to the entire ROCS Africa team for their consummate professionalism, unwavering dedication, and relentless pursuit of excellence. Their meticulous attention to detail and propensity to exceed expectations have rendered this collaboration profoundly enriching.

Thank you once again for your exemplary service and for your contribution to the triumph of North Beach SuperSpar.

Warm regards,

Jorge Farinha
